Request To Approve Drawing Changes

Official Draftsman
Patent and Trademark Office
Washington, D.C. 20231

Sir:

In accordance with 37 C.F.R. § 1.173, please find attached an amended Figure 6C in the drawings. Original Figure 6C contains an error with respect the designation of the adhesive fillets that fasten the slider to outriggers 72. This element is designated by numeral 16 in the '103 patent, but should be listed as numeral 61 (numeral 16 is used elsewhere in the '103 patent to designate the

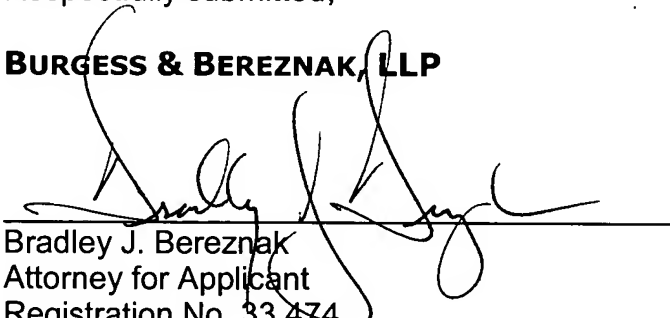

shaped flexure opening of the embodiments shown in Figures 1A, 3, and 5A).
Accordingly, reference numeral 16 in Figure 6C has been changed to reference
numeral 61 in the amended drawing attached herewith.

Please charge any shortages and credit any overages to Deposit Account No.
50-2060.

Respectfully submitted,

BURGESS & BEREZNAK, LLP

Alexandria, VA 22313-1450

Sir:

The original Letters Patent for MAGNETIC HEAD SUSPENSION ASSEMBLY FABRICATED WITH INTEGRAL LOAD BEAM AND FLEXURE, United States Letters Patent No. 5,282,103 issued January 25, 1994, is not being submitted in the above-referenced reissue application. The surrender of United States Letters Patent No. 5,282,103, however, is hereby proffered. The undersigned has reviewed the patent files

of the foregoing patent, as well as related patent files, and has been unable to locate the original patent. The original patent is believed lost or, alternatively, inaccessible insomuch as the original assignee, Read-Rite Corporation, filed for Chapter 7 bankruptcy several months ago and the undersigned has been unable to access any of their records, to the extent that they still exist.

Respectfully submitted,
